

The new PARAVAN PR 30

As individual as your needs and wishes!
Top product quality with technology made in Germany!

**PR 30: Top-Quality,
attractive prices!**

Consistent enlargement of the PARAVAN PR series

The new PARAVAN PR 30 is modular and can be modified with extensive additional options which are medically required. An tilt function, a lifting function (lifting height up to 80 cm) or both together, additional electric footrests are all included in the PR 30 modular construction system, and much more. It enables the PR 30 to be perfectly adapted to personal needs and clinical pictures.

PARAVAN contour seat system

Even the basic version of the new PR 30 is equipped with the comfortable, convenient PARAVAN contour seat system. The customer can choose any of nine different configurations comprising seat-backrests (height: 52, 63, 71 cm) and seat parts (seat depth: 40 - 54 cm) at no extra cost. The base plate of the seat with a seat pad, a manual folding backrest, and integrated back plate with thread inserts (e.g. for drip stands, pushing aids), an adjustable headrest, armrests with multiple adjustments as well as easy-care seat cover „Monte Carlo“ with embroidered PARAVAN lettering are also included. Further seat pads are available optionally for customising.

Safety & Stability, made in Germany

In the new PR 30 our engineers, technicians and therapists have created a flexible masterpiece in the very best mechanical engineering tradition of Germany. A ten-year warranty* and the fast 24-hour spare parts service leave nothing to be desired!
